

Global Medical Services & Global Consulting

The experts at Global Medical Services (GMS) believe that risk is a part of life, but that people can learn to live with that risk through education and advance planning. Since 1998, GMS has been providing innovative, practical solutions to enhance the health and preparedness of hundreds of clients across Canada.

GMS offers a number of innovative services:

- **Medical Education Programs:** approved by the BC Heart and Stroke Foundation and the College of Physicians and Surgeons of BC
- **Automated External Defibrillator (AED) Programs:** distribution, training, and medical direction
- **Medical Oversight:** physician approval of emergency protocols and procedures for all levels of responders
- **Paramedic Services**
- **Tailored Medical Consulting Services:** develop coordinated strategies for the successful implementation and sustainability of health and safety initiatives

Global Consulting is the business continuity division of GMS. Since 2004, Global Consulting has played a vital role in the emergency and pandemic preparedness of public and private sector organizations across North America. The company's consultants are seasoned practitioners in a broad variety of disciplines, and provide the following services:

- **Pandemic Influenza Planning**
 - o *Pandemic Plan Review*
 - o *Pandemic Response*
 - o *Pandemic Debrief*
 - o *Antiviral Programs*
 - o *Online Pandemic Education*
- **Business Continuity Planning**
- **Emergency Response Planning**
- **Evacuation Planning**
- **Plan Review and Assessment**
- **Plan Response Exercises**

The team at GMS and Global Consulting understand that medical services and business continuity are unfamiliar—even intimidating—areas for many people. With this in mind, GMS will work with you to develop programs that will improve your company's ability to respond to a health or emergency situation.
